COMPANY OVERVIEW

Sigma Business Essentials is a premier provider of Packaging Equipment & Supplies, Foodservice and JanSan Solutions. With a focus on delivering exceptional value, service, and efficiency, we help organizations optimize their operations, improve productivity, and streamline procurement processes.

OUR MISSION

Deliver innovative, technology-driven solutions in packaging, equipment, and industrial supplies that help our customers reduce product waste, minimize labor costs, and enhance productivity—all while prioritizing the safest possible work environment.

SUPPLIERS + PORTFOLIO

Due to the many relationships we nurture with our manufacturers in each category, we're able to provide a reduced "disaster risk" in the event that production problems occur. This also reduces the impact that freight rates can cause by producing in closer proximity across our nation.
